About Amzak

Amzak Capital Management is a private investment firm owned by the Kazma family. Originally from Canada but based in the U.S. since 1969, the Kazma’s got their start in the cable Television industry. Originally, Amzak focused mainly in the Telecommunications sector, but throughout the past five years it has successfully diversified into a broad range of industries and investment vehicles. Amzak’s current portfolio is comprised of direct investments, fixed income instruments, real estate projects, and, to a lesser extent, LP investments. Within its direct investment practice, Amzak looks for opportunities across the capital structure (senior debt, mezzanine, and control and non-control equity). It typically invests \$3 to \$20 million per debt or minority interest transaction, with notably higher amounts possible for a control transaction either alone or through partnerships with likeminded investors.
